VIETNAM'S LEADING POWER & ENERGY SOLUTIONS AND AUTOMATION TECHNOLOGIES EVENT

Continually receiving strong supports from ministries and industry trade associations, Electric & Power Vietnam 2016, together with Industrial Automation Vietnam 2016, in its return for the 6th time drew to a close with a resounding result. Taking place from 14 to 16 September 2016, with exhibits filling up nearly 7000 square meters of the SECC exhibition space, the event hosted 152 exhibitors and attracted 4,609 industry buyers and decision makers from across Vietnam and the region.

“ This is the 5th time that KEPCO has supported Electric & Power Vietnam. We always find it as an important business platform for Korean suppliers to promote their products and solutions to the potential buyers in the local market. ”

Jintae Park – Senior Manager
KEPCO (Korea Electric Power Corporation)

EXHIBITOR QUOTES

“ We had a 108m² stand for Taiwan at Electric & Power Vietnam 2016. Our exhibitors were very satisfied with the contacts they made. EPV has become the most significant power and energy technology exhibition in Vietnam. We look forward to another successful show in 2018!

Ms. Jenny Yang - Division Manager
Taiwan Electrical And Electronic Manufactures' Association

Our company is the leading wiring accessories manufacturer in Taiwan, offering a wide range of products with high quality and cost efficiency. I think Electric & Power Vietnam 2016 provides a good platform for us to showcase our new products and network with potential customers. This is the first time our company has exhibited and we will be back for sure!

Mr. James Peng - Vice Director
K. S. Terminals Co., Ltd. Vietnam

Our company - KJ Power Generator - is the leading generator company in Turkey. This is our first time participating in Electric & Power Vietnam to showcase our diesel generators. I think it's a great show and we have received favorable responses from many customers. We will manage to come back next time.

Mr. Ibrahim SURUCU - Export Specialist
KJ Power Generator ”

HEAR FROM VISITORS

“The Electric & Power Vietnam is a great event of the very best professionals in the power generation, power transmission and distribution showcasing a wide range of products for the energy industry. It is a good opportunity to make business contacts; in fact we are exploring partnerships with some of the exhibitors providing high voltage electrical equipment. The show is well-organised and our delegates had a fruitful visit. May the exhibition more success in years to come!

Mr. Kieu The Van - Manager Electrical Parts

VN Urban And Industrial Zone Development Investment Corp. - IDICO Urban And House Development Investment JSC.

This is the first time my colleagues and I are attending Electric & Power Vietnam. We are impressed with the excellent organisation of the show! Really appreciate their effort, professionalism, dedication and empathy that the organising team showed in helping us. Well-decorated booths and the exhibitors are willing to provide more details about their products, which is very helpful for us to get updated with the current trends. We have learnt much from our trip this time and we definitely continue to support the next edition.”

Mr. Nguyen Anh Huy - Planning & Materials Department

EVN SPC - PC Can Tho

Electric & Power Vietnam, co-located with Industrial Automation Vietnam, is one of the most important electrical power and automation exhibitions in Vietnam. This year's edition has grown on a larger scale compared to the previous one, with a wide variety of products on display and a healthy presence of international exhibitors. This third visit to the show was quite helpful since we have had chances to stay up-to-date with the latest power technologies and solutions available. We look forward to returning to EPV in 2018.

Mr. Tran Minh Tam - I&C Workshop Deputy Manager

Petro Vietnam Fertilizer & Chemicals Coporation Branch of Petrovietnam Fertilizer & Chemicals Coporation - Phu My Fertilizer Plant

Electric & Power Vietnam and Industrial Automation Vietnam are our favorite trade events for seeing and meeting electric & power industry experts with their latest innovations and products on display. In fact, we found some potential suppliers which we will follow-up further with after the show. It is definitely a very useful platform for our business. We'll be back to the next edition.

Mr. Tran Thuong Hoai - Electrical Engineer

Song La Technical Equipment Co.,Ltd.

This is our second time to Electric & Power Vietnam and we were satisfied with the result so far despite the long travel to the show. This edition is better than the previous one with a strong mix of international and local exhibitors. We have managed to find one qualified equipment supplier. Well-organised and professional are just a few among many good qualities of the show. Wish the Electric & Power Vietnam exhibition more success for the years to come!

Mr. Nguyen Van Hanh - Deputy Director.
